

About Flat White Designs

Last Updated 02 Mar 07

Flat White Designs is the creation of David McNally Ceng (UK) MIET. David worked for 15 years in the European technology industry as a professional design and performance engineer before moving to Christchurch with his New Zealand-born wife.

Seeing the need for high quality, affordable websites in New Zealand, David has established Flat White Designs to meet this need.

Flat White Designs is a small, customer-focused organisation which can deliver the website you require at the best possible price.
